FRONTEND / FULL-STACK JAVASCRIPT DEVELOPER

Frontend-focused Full-Stack JavaScript Developer with commercial and freelance experience building modern web applications using React, Next.js, TypeScript, Node.js, Express, PostgreSQL, and MongoDB. Experienced in developing reusable UI components, integrating REST APIs, implementing authentication, fixing production issues, and delivering responsive applications. Focused on building reliable, user-friendly applications, writing clean maintainable code, and continuously improving development skills.

EDUCATION

Odesa Polytechnic National University

2021 - 2025

B.A. in Computer Science

Studied computer science fundamentals including algorithms, data structures, databases, and software engineering.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, SCSS, Redux Toolkit, Context API, Axios, Responsive Design, Cross-Browser Compatibility

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Cookie-based Authentication

Databases: PostgreSQL, MongoDB, Firebase

Tools & Deployment: Git, GitHub, npm, Postman, Docker, Vercel, Netlify, Render

WORK EXPERIENCE

Full-Stack Developer | Freelance

2024 - 2025

- Built responsive websites and landing pages based on Figma designs using React, JavaScript, HTML, SCSS.
- Fixed UI, styling, and JavaScript issues, implemented new interface elements, improved existing functionality, and refactored reusable React components.
- Integrated REST APIs, worked with forms, client-side validation, asynchronous requests, and small backend updates using Node.js.
- Communicated directly with clients, estimated implementation effort, and delivered features based on business requirements and feedback.

Frontend Developer | Axels (NDA)

2025 - 2026

- Developed and maintained frontend features for commercial web applications using React, Next.js and TypeScript.
- Implemented new features, improved existing UI, fixed production bugs, and refactored reusable components.
- Integrated REST APIs and implemented JWT-based authentication and secure session flows.
- Participated in deployment and maintenance of applications using Vercel, Render, Firebase, and Neon.
- Collaborated with the team through Git, code reviews, task tracking, and iterative delivery.
