Portfolio LinkedIn

SUMMARY

Full-Stack JavaScript Developer with 1.5 year of commercial experience building and maintaining production applications using React, Next.js, TypeScript, Node.js, and Express.js. Experienced across frontend and backend development, REST APIs, GraphQL, PostgreSQL and MongoDB, automated testing, debugging, and deployment workflows. Worked in Agile/Scrum teams with Git-based development, peer code reviews, CI/CD workflows, and Jenkins. Comfortable taking ownership of features, solving production issues, and working independently in small development teams.

WORK EXPERIENCE

Frontend Developer

Axels
Dec 2025 – Aug 2026

- Developed and maintained production web and desktop applications using React, Next.js, TypeScript, Electron, Node.js, and Firebase.
- Built reusable frontend components, implemented new product features, and diagnosed and resolved production issues across existing applications.
- Developed backend functionality and REST/GraphQL API endpoints using Node.js and Firebase, implementing authentication, chat features, subscriptions, and application data processing.
- Wrote unit tests with Jest, participated in debugging, and collaborated on maintaining application quality throughout development.
- Worked in Agile/Scrum teams using Jira, contributing to sprint planning, story point estimation, daily stand-ups, sprint reviews, and retrospectives.
- Collaborated in Git-based development workflows, participating in pull requests, peer code reviews, Jenkins CI checks, merge approvals, and release handoff to QA.

Freelance Frontend Developer

Upwork
Aug 2025 – Dec 2025

- Built responsive web interfaces and landing pages from Figma designs.
- Developed reusable React components, implemented new UI functionality, and resolved styling and JavaScript issues across existing applications.
- Integrated REST APIs, handled forms, client-side validation, and asynchronous data flows.
- Communicated directly with clients, clarified requirements, estimated implementation effort, and delivered changes based on feedback.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, HTML5, CSS3, Tailwind CSS, SCSS
Backend & Data: Node.js, Express.js, REST APIs, GraphQL, PostgreSQL, SQL, MongoDB, Firebase
Testing: Jest, Vitest, Playwright, React Testing Library, Supertest, Unit Testing, Integration Testing, API Testing
DevOps: Docker, Docker Compose, GitHub Actions, Jenkins, CI/CD
Tools & Practices: Git, GitHub, Jira, Agile/Scrum, Postman, Codex, Cursor

---

EDUCATION

Odesa Polytechnic National University

2021-2025

Bachelor’s Degree in Computer Science

PROJECTS

Spendly | Expense Tracking App

React, TypeScript, Express.js, GraphQL, MongoDB, Docker
Built a full-stack expense tracking platform with a GraphQL API and MongoDB data layer, supporting budget management, categorized transactions, and interactive spending analytics.

Hirepath | Job Tracking Platform

React, TypeScript, Express.js, MongoDB, Docker, Playwright
Built a full-stack job tracking platform with secure authentication, REST APIs, job management, and application analytics. Implemented unit, integration, API, and E2E testing, Dockerized, and built a GitHub Actions CI/CD pipeline with automated deployment.
