SUMMARY

Full-Stack JavaScript Developer with commercial experience building and maintaining production applications using React, Next.js, TypeScript, Node.js, and Express.js. Experienced across frontend and backend development, REST APIs, PostgreSQL and MongoDB, automated testing, debugging, and deployment workflows. Worked in Agile/Scrum teams with Git-based development, peer code reviews, CI/CD workflows, and Jenkins. Focused on building maintainable and testable software across the application stack.

WORK EXPERIENCE

Frontend Developer

Axels
Dec 2025 – Aug 2026

- Developed and maintained commercial applications using React, Next.js, TypeScript, Electron, and Node.js.
- Built reusable frontend components, delivered new functionality, and diagnosed and fixed production issues across existing applications.
- Developed backend functionality and API endpoints using Node.js and Firebase, working with authentication, chat functionality, subscriptions, and application data.
- Wrote unit tests with Jest and participated in application testing and debugging.
- Worked in Agile/Scrum teams using Jira, participating in sprint planning, story point estimation, daily stand-ups, sprint reviews, and retrospectives.
- Worked with Git-based development and CI/CD workflows, including pull requests, peer code reviews, Jenkins checks, merge approvals, and handoff to testing.

Freelance Frontend Developer

Upwork
Aug 2025 – Dec 2025

- Built responsive web interfaces and landing pages from Figma designs.
- Developed reusable React components, implemented new UI functionality, and resolved styling and JavaScript issues across existing applications.
- Integrated REST APIs, handled forms, client-side validation, and asynchronous data flows.
- Communicated directly with clients, clarified requirements, estimated implementation effort, and delivered changes based on feedback.

SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, HTML5, CSS3, Tailwind CSS, SCSS

Backend & Data: Node.js, Express.js, REST APIs, GraphQL, PostgreSQL, SQL, MongoDB, Firebase

Testing: Jest, Vitest, React Testing Library, Supertest, Unit Testing, Integration Testing, API Testing

Tools & Practices: Git, GitHub, Docker, Jira, Jenkins, CI/CD Workflows, Agile/Scrum, Code Reviews, Postman

EDUCATION

Odesa Polytechnic National University

2021-2025

Bachelor's Degree in Computer Science

PROJECTS

Spendly | Expense Tracking App

React, TypeScript, Express, GraphQL, MongoDB
Built a full-stack expense tracking platform with a GraphQL API and MongoDB data layer, supporting budget management, categorized transactions, and interactive spending analytics.

HirePath | Job Tracking Platform

React, TypeScript, Express.js, MongoDB, Supertest
Built a full-stack job tracking platform with secure authentication, REST APIs, job management, and application analytics. Structured the backend into maintainable application layers and implemented automated unit and API testing.
